

Enphase Engage Cable

The **Enphase Engage Cable™** is a continuous length of 12 AWG cable with pre-installed connectors for Enphase Microinverters. The cable is handled like standard outdoor-rated electrical wire, allowing it to be cut, spliced, and extended as needed.

The Enphase Engage accessories complement the Engage Cable and give it the ability to adapt to any installation.

Fast

- Quick installation
- Large branch capacity

Flexible

- Simple design
- No additional cables

Safe

- No high voltage DC
- Reduced fire risk
