To save installers money, we have engineered the use of locally sourced galvanized schedule 40 steel pipe (ASTM A53 Grade B) or Allied Mechanical Tubing, in 2 and 3" sizes, as the primary structural element of our Ground Mount System. Additional details on the physical dimensions and properties of both galvanized schedule 40 pipe and Allied Mechanical Tubing are located on page 38 in our product catalog.

When additional assistance is needed to address ground mounting your panel array, please contact our customer service team at 800-227-9523, or at sales@ironridge.com. Often, IronRidge distributors prefer to use our online Ground Mount Design Assistant tool found at www.ironridge.com/gm.
