

Installation Manual
Universal Side-of-Pole Mount
UNI-SP/03

 **IRONRIDGE**
Solar Mounting Solutions

Introduction

The Universal Side-of-Pole Mount UNI-SP/03 is a very sturdy and straightforward pole mounting solution for small area solar photo voltaic (PV) needs. With its user-adjustable angle settings, it can support installations in a wide range of locations.

In addition, the UNI-SP/03 supports:

- ◆ Up to three PV panels with a combined width of up to 70 inches.
- ◆ Pole diameters from 4.0 inches to 4.5 inches.

1. Installer Responsibility

The installer is solely responsible for:

- ◆ Complying with all applicable local or national building codes, including any that may supersede this manual
- ◆ Ensuring that IronRidge and other products are appropriate for the particular installation and the installation environment
- ◆ Ensuring that the selected mount can support the array under live load conditions
- ◆ Using only IronRidge parts and installer-supplied parts as specified by IronRidge. Substitution parts may void the warranty
- ◆ Ensuring safe installation of all electrical aspects of the PV array.

2. Customer Support

IronRidge makes every effort to ensure your mounting kit is easy to install. If you need assistance at any point with your installation or have suggestions on how we can improve your experience, call IronRidge customer support: (800) 227-9523

3. Tools Required For Assembly

The following tools are required to assemble the Universal Side-of-Pole Mount:

Tool	Use for
Wrenches Open-end wrench, Box-end wrench, or 3/8" or greater socket drive with sockets to support the following size hex heads: <ul style="list-style-type: none"> ◆ 5/16" ◆ 1/4" 	<ul style="list-style-type: none"> ◆ 5/16-18 cap-end screws ◆ 5/16-18 bolts ◆ 1/4-20 cap-end screws ◆ 1/4-20 bolts ◆ Cap-end screws on hose clamps
Screwdriver Slotted, 1/4"	<ul style="list-style-type: none"> ◆ Cap-end screws on hose clamps

4. Component List

The Universal Side-of-Pole Mount UNI-SP/03 kit contains the following parts:

<p>Bucket (51-3517-200) x2</p> <p>Attaches to the pole with the hose clamps, providing the link between the pole and the module/rail support assembly</p> 	<p>Hose Clamps (27-5000-010) x4</p> <p>Attach to the pole, holding the Bucket. These hose clamps are compatible with poles ranging from 3.0 inches to 4.5 inches</p> 
<p>Rails (51-0580-011) x2</p> <p>Attach directly to the back of the module</p> 	<p>Clips left (51-3517-243) x2 and right (51-3517-244) x2</p> <p>Hold the panel rails, allowing adjustment of the panel angle</p> 
<p>Support Rails inner (51-3029-000) x2 and outer (51-3029-001) x2</p> <p>Attach to the lower bucket, supporting the lower edge of the panel</p> 	

Part	Qty	Part Number
1/4 x 3/4" Kit	3	29-5000-000
1/4-20 x 3/4" SS hex-cap bolt	12	23-2520-050
1/4 flat washer, SS	12	25-2502-000
1/4 split lock washer, SS	12	24-2501-000
1/4-20 fin hex nut, SS	12	24-2520-440
5/16 x 3/4" Kit	1	29-5005-000
5/16-18 x 3/4" SS hex-cap bolt	16	23-3118-021
5/16 flat washer, SS	32	25-3102-000
5/16 split lock washer, SS	16	25-3101-000
5/16 hex nut, SS	16	25-3118-440
5/16 x 3/4" Kit	1	29-5006-001
5/16-18 x 3/4" SS hex-cap bolt	6	23-3118-021
5/16 flat washer, SS	12	25-3102-000
5/16 split lock washer, SS	6	25-3101-000
5/16 hex nut, SS	6	25-3118-440
5/16 and 1/4 x 3/4" spare hardware kit	1	29-5002-000

5. Assembly

Step 1 - measuring the distance between mounting holes on the PV module

Parts Required	Qty	Part Number
PV Module	up to 3	User-supplied

1. Lay the modules face down on a protected surface in the appropriate orientation. Leave an inch or two between the panels.

2. Measure the distance between the inside mounting holes on the back of the PV module as shown and make a note of it.

Step 2 - mounting the rail supports on the PV module

Parts Required	Qty	Part Number
Rails	2	51-0580-011
1/4-20 x 3/4" SS hex-cap bolt	12	23-2520-050
1/4 flat washer, SS	12	25-2502-000
1/4 split lock washer, SS	12	24-2501-000
1/4 hex nut, SS	12	24-2520-440

1. Do one of the following:

- ◆ If the distance between the PV module mounting holes is less than 26.9", place the rails on the back of the panel so the lip of the rail containing the module mounting holes is facing towards the **center** of the module.

- ◆ If the distance between the PV module mounting holes is 26.9" or more, place the rails on the back of the panel so the lip of the rail containing the module mounting holes is facing toward the **outside edges** of the module.

2. Secure the rails with a bolt, lock washer and hex nut in each of the PV mounting holes (4 on each panel).

Tighten the bolts to 7 ft-lbs.

Step 3 - attaching the clips to the rails

Parts Required	Qty	Part Number
Clip, left end	1	51-3517-243
Clip, right end	1	51-3517-244
5/16-18 x 3/4" SS hex-cap bolt	4	23-3118-021
5/16 flat washer, SS	8	25-3102-000

Parts Required	Qty	Part Number
5/16 split lock washer, SS	4	25-3101-000
5/16 hex nut, SS	4	25-3118-440

1. Do one of the following:

- ◆ If the distance between the PV module mounting holes is less than 26.9", attach the clips to the rails so the protruding end of the clips are facing the **outside edges** of the module.

- ◆ If the distance between the PV module mounting holes is 26.9" or more, attach the clips to the rails so the protruding end of the clips are facing the **center** of the module.

2. Attach the clips to the rails. In each of the mounting holes, use a bolt and flat washer on one side, and a flat washer, lock washer and nut on the other.

Tighten the bolts to 8.3 ft-lbs.

Step 4 - assembling the support rails

Parts Required	Qty	Part Number
Support Rail, inner	2	51-3029-000
Support Rail, outer	2	51-3029-001
5/16-18 x 3/4" SS hex-cap bolt	4	23-3118-021
5/16 flat washer, SS	8	25-3102-000
5/16 split lock washer, SS	4	25-3101-000
5/16 hex nut, SS	4	25-3118-440

1. Line up an inner and outer support rail as shown so that two of the holes in the rails line up.
2. Bolt the rails together using a flat washer on both sides, with a lock washer under the nut.

Tighten the bolts to 8.3 ft-lbs.

3. Repeat with the second set of support rails.

Step 5 - attaching the buckets to the pole

Parts Required	Qty	Part Number
Hose Clamp	4	27-5000-010
Bucket	2	51-3517-200

1. Thread a hose clamp through each of the sets of narrow center holes in the buckets.
2. Place the bucket assemblies at the desired location on the pole. Start with the buckets about 36 inches apart. The spacing can be adjusted later.

I This kit is only compatible with poles ranging from 4.0" to 4.5"

3. Once the hose clamps are in the desired position, tighten the hose clamp screws to 35 inch-lbs.

Step 6 - mounting the PV assembly on the pole

Parts Required	Qty	Part Number
1/4-20 x 3/4" SS hex-cap bolt	4	23-2520-050
1/4 flat washer, SS	8	25-2502-000
1/4 split lock washer, SS	4	24-2501-000
1/4 hex nut, SS	4	24-2520-440

1. Place the PV module assembly so the holes on the clips line up with holes in the inside of the bucket.

Note: depending on the size of the panels you started with, your assembly may look different than this picture, with the clips and rails facing in the opposite direction.

2. Bolt the clips to the bucket using flat washers with a lock washer under the nut.

Tighten the bolts to 8.3 ft-lbs.

Step 7 - attaching the support rails

Parts Required	Qty	Part Number
Clip, left end	1	51-3517-243
Clip, right end	1	51-3517-244
1/4-20 x 3/4" SS hex-cap bolt	8	23-2520-050
1/4 flat washer, SS	16	25-2502-000
1/4 split lock washer, SS	8	24-2501-000
1/4 hex nut, SS	8	24-2520-440

1. Bolt the remaining two clips to the lower bucket using flat washers with a lock washer under the nut.

2. Tighten the bolts to 8.3 ft-lbs.

3. For each of the two support rails, bolt one end of the rail to the corresponding bucket, using flat washers with a lock washer under the nut.
4. Bolt the other end of each support rail to the end of the corresponding panel mounting rail, using flat washers with a lock washer under the nut.

-
5. Adjust the panel angle as desired, by:
 - ◆ Moving the lower bucket up or down
 - ◆ Lengthening or shortening the panel support rails by lining up two alternate holes
 - ◆ Changing the hole where the support rail connects to the panel rail

-
6. Once the adjustments are complete, tighten all 1/4" hardware to 8.3 ft-lbs.
-
-

IronRidge 10-Year Warranty

Terms and Conditions

IronRidge warrants each Mounting Structure to be free from defects in materials and workmanship for ten (10) years from the date of first purchase (“Warranty Period”), when installed properly and used for the purpose for which it is designed, except for the finish, which shall be free from visible peeling, or cracking or chalking under normal atmospheric conditions for a period of three (3) years, from the earlier of 1) the date the installation of the Product is completed, or 2) 30 days after the purchase of the Product by the original Purchaser (“Finish Warranty”). The Finish Warranty does not apply to any foreign residue deposited on the finish. All installations in corrosive atmospheric conditions are excluded. The Finish Warranty is VOID if the practices specified by AAMA 609 & 610-02 – “Cleaning and Maintenance for Architecturally Finished Aluminum” (www.aamanet.org) are not followed by Purchaser for IronRidge’s aluminum based products.

The warranty covers the replacement cost of parts to repair the product to proper working condition. Transportation and incidental costs associated with warranty items are not reimbursable. The warranty does not cover normal wear, or damage resulting from misuse, abuse, improper installation, negligence, or accident. The warranty does not cover any defect that has not been reported in writing to IronRidge within ten (10) days after discovery of such defect. Furthermore, it does not cover units that have been altered, modified or repaired without written authorization from the manufacturer or its authorized representative, or units used in a manner or for a purpose other than that specified by the manufacturer. IronRidge’s entire liability and Purchaser exclusive remedy, whether in contract, tort or otherwise, for any claim related to or arising out of breach of the warranty covering the Mounting Structures shall be correction of defects by repair, replacement, or credit, at IronRidge’s discretion. Refurbished Mounting Structures may be used to repair or replace the Mounting Structures.

IronRidge shall have no liability for any injuries or damages to persons or property resulting from any cause, whatsoever, or any claims or demands brought against IronRidge by Purchaser, any employee of Purchaser, client of Purchaser, end-user of the Product or other party, even if IronRidge has been advised of the possibility of such claims or demands (collectively, “Third Party Claims”). This limitation applies to all materials provided by IronRidge during and after the Warranty Period.
